Hello Jami, thank you for the detail on the Marina expansion project. I had written about preserving visual access of the harbor when evaluating any land-based construction. It looks like all but the extension of the pier towards the Harbor trail is on the water and not on land. That is good news for preserving the public's visual access to the water. Jim

Good Afternoon,

This is to notify you that the Department of Environmental Protection has received an application (#L-20386-4P-P-N) from SHM Rockland, LLC for a Natural Resources Protection Act (NRPA) permit for a proposed marina expansion including dredging, floats, piles, and a pier extension. The Department received the application on July 6, 2021, and is currently reviewing the application for completeness. The determination of completeness will be made no later than July 27, 2021. Once the application is accepted, the Department's maximum processing time is 120 days. Written comments will be accepted until a decision is issued.

You are receiving this notification because you previously expressed concerns regarding this project. A copy of the application is attached. Any public comments relevant to the Department's review may be submitted in writing directly to me. I will be the project manager for the review.

Sincerely,

-Jami MacNeil (she/her)
