Good morning.

The Board is in receipt of additional filings by Mr. Spinney in response to comments received that appear to contain evidence not in the licensing record. If so, the additional information will be reviewed for admissibility.

At this time I ask the licensee, the appellants, and interested persons to refrain from submitting additional emails in response to filings by other persons. There is a process set forth in Chapter 2 of the Department's rules that governs submissions in an appeal proceeding and responses thereto which must be followed.

The Board will review the most recent filings and notify you of the next steps in the process and any further written comment opportunities. There will be an opportunity for the licensee and appellants to present oral argument at the Board meeting when the Board considers this appeal.

Thank you for your attention to this matter.
