Mr. Hinkle,

Should i seperately address the approximately 25 first level attachments (you may note that some of these also have attachments too, and so on in a nested fashion) individually when objecting to them, or would it be preferable to do it en masse due to the volune of extraneous info here?

I dont want to unnecessarily overwhelm the board with pages and pages of details if thats not the right procedure.

Also, opponents appear to have requested a stay based on two supposed investigations/violations. Can we ask for clarity on specifically what those are? And with what agencies? I know both dep and local officials have both visited the site pre and post construction and i am not aware of any credible issues with either to date. I obviously need to be aware of the investigations in order to be able to object to them here from a orocedural point of view here.

Thanks for helping clarify these couple of points so we can properly respond and object to both items in timely fashion.

Thanks,
Jeff

Mr. Weary:

It has come to my attention that you did not include Jami MacNeil of the Department on this and your other filing today. I have included Ms. MacNeil here to complete service.

Sincerely,
