OK thanks Jami, I just called Chris and will review the file Friday morning.

Jeff

Hi Jeff,

There has been more correspondence with the applicant within the past few days, and more interested persons' comments. I don't want to make the decision for you as to what is and is not relevant, so I'm afraid you'll have to come in to view them.

The hold does not mean we are not working on the review, it just extends the deadline. The hold will essentially remain in effect until we issue a draft of the Order. There will be no blanket notification to interested persons when the hold is removed, we will just issue the draft to those who have requested it. We will then allow at least five business days for additional comments to come in on the draft, make any appropriate changes, and issue the final Order.

We haven't found the Boyle file yet. The project manager transferred from the Augusta to Portland office during that review, and the file may be in a box somewhere in Portland. I will let you know when we find it.

Best,

Good morning Jami,

Thank you for providing an update, that saves me time and expense. It appears there has been no activity or correspondence by the applicant? Given that the application is on indefinite hold, does that mean the DEP has ceased any work on it? And, what is the process for removing the hold, and notifying interested parties that a hold has been removed?

Finally, has that file on the Boyle project been located yet?

Thank you,
Jeff

There was also a brief exchange with MNAP on what they wanted to see for erosion controls. See attached.

Hi Jeff,

I think the two attached comment letters are the only thing of substance that has been added since 1/9/2020.

Best,

Thanks Jami,

Have there been any substantive additions to the file since I reviewed it last Thursday? I would like to make another visit if/when there is to collect anything important unless it is easier to send along to me.

Thanks again,
Jeff
