Subject: RE: Application of Jeffrey Spinney of Golden Ridge Road in Alna to construct permanent dock and boat access ramp on the Sheepscot River
Attachments: Spinney_Jeffry_L28397AN_DRAFT.pdf

Ms. Sprague,

I apologize for the oversight. The draft is attached and below is the language that was sent with the draft. Since you are receiving this late, the deadline for you to submit comments on the draft is close of business on **March 2, 2020**.

Please find attached to this email a draft order for **NRPA permit #L-28397-4E-A-N**, located in **Alna** for **Jeffry Spinney**. This draft was initially distributed on February 10, 2020, to all interested persons who had submitted a written request for a draft. To ensure that all interested persons have an opportunity to comment, the Department is now distributing this draft to all individuals who have submitted written comments on the application during the review process, including those who did not specifically request a copy of the draft. You may send comments on the draft to the project manager, Jami MacNeil, at jami.macneil@maine.gov. Comments are due by close of business on **February 28, 2020**.

Please note that this draft is the same version that was initially issued on February 10, 2020. If you have already submitted comments on the draft, you do not need to resend them. They will be considered during the Department's final review.

This electronic version of this **draft order** is an Adobe Acrobat .pdf file. If you don't have the Adobe Acrobat Reader on your computer, you can click on this link to download the free reader.

Ms. MacNeil,

My neighbors received a draft decision from you, but I was not included on that email. Please send.

Thank you,
Leah Sprague

Dear Ms. Sprague,

Thank you for your comments regarding the construction of a boat ramp and pier system in Alna as proposed by Jeffrey Spinney. The Department is currently reviewing the application under Maine's Natural Resources Protection Act. The Department accepted the application for processing on September 9, 2019. The Department's goal deadline to reach a final decision on the application is January 24, 2020; however, the Department may issue a decision prior to that date. Written comments will be accepted until a decision is issued.

Your comments will be added to the file and will be considered during the review of the project. The Department's record, which includes the application of specific interest to you, is available to be viewed at any time. Feel free to contact the Department's File Room at (207) 287-7843 to request a day and time that is convenient for you to view the record.

You may contact me with additional concerns, questions, or comments. I can be reached at (207) 446-4894 or via email at jami.macneil@maine.gov.

Sincerely,

-Jami MacNeil

Subject: Application of Jeffrey Spinney of Golden Ridge Road in Alna to construct permanent dock and boat access ramp on the Sheepscot River

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Ms. MacNeil.

I am writing concerning the application by Jeffrey Spinney for a permit to construct a permanent dock on the Sheepscot River, as well as a boat access ramp from his property on the Golden Ridge Road in Alna, Maine. I reside on South Dyer Neck Road in Newcastle. My property includes over 1000 feet of frontage on the Sheepscot River, one

mile north of the Sheepscot Village bridge and down river from Mr. Spinney's proposed project. I have owned this property since 1996, and have lived here full-time since 2002. I am very concerned about developments along this pristine river that would change its current nature. Boaters who travel from the bridge in Sheepscot Village north to Head Tide enjoy virtually a wilderness experience, with very little evidence of human development along both shores of the river. (Much of the frontage in the Town of Newcastle, for example, is protected by the Town's shoreline zoning ordinance as a resource protection district.) It is a major reason why I and many of my neighbors have chosen to live in this special place. It is also why so many choose to explore the river here by canoe or kayak. The river in this area is narrow and shallow and with a pretty decent current because of the influence of the tides. I have in the past owned a Boston Whaler and would never take it north of my property because of the risk of hitting rocks and debris that are not far below the surface of the river. In the past twenty years, I have very rarely heard the sounds of motor boats traveling up river from my property, and on those rare occasions when I have, I have wondered whether these boaters are aware of the dangers beyond here.

Sheepscot Village, Dyer's Neck, the Golden Ridge and the Sheepscot River as it winds its way north to Head Tide are natural wonders that deserve to remain that way. I am aware that there is a need for access to the river, but the site that Mr. Spinney proposes is not the appropriate location for such access, and the prospect of a boat ramp to entice motor boats or other forms of motorized water craft to enter the river at this point is very unsettling. I hope that the Department of Environmental Protection will deny Mr. Spinney's application. I encourage you and others who are part of the decision-making process, when weather permits, to travel the river in this area and experience the solitude and beauty that we who are privileged to live here, and those who undertake the experience of the river, enjoy. I believe you will then agree that this change will be destructive of a very special place in an otherwise increasingly developed landscape.

Thank you for your consideration.
