

14.0 BASIC STANDARDS

Nordic retained Atlantic Resource Consultants (ARC) to develop a Soil Erosion and Sedimentation Control Plan for the development and phased construction approach. This plan, included as **Appendix 14-A**, provides a narrative of temporary and permanent erosion control methods, expected final stabilization date, locations of drainage features and erosional control features, limits of construction disturbed areas, calculations for sizing, spacing or stabilizing each erosion and sedimentation control measure, and inspection and maintenance plans. Erosion and sedimentation control notes, phasing plan, design drawings and installation details are also included in the project engineering plan set as sheets **CE001, CE110-CE118, and CE501-CE504**.
