

## **Section 13**

### **Urban Impaired Streams**

## Section 13. Urban Impaired Streams

### 13.1 State Standards

Pursuant to the State's Site Law:

*If required, the urban impaired stream standard applies in addition to the basic, general and flooding standards.*

### 13.2 Local Standards

As described in Section 1, both towns require wind energy projects similar in size to the proposed Project to obtain a Site Location of Development permit from the State. Therefore, the Project will have to meet the State's regulations, in addition to any additional local requirements.

### 13.3 Urban Impaired Streams Assessment

The Project area does not lie within an urban impaired stream watershed. The urban impaired stream standard does not apply to this Project.
