To Whom it may concern,

How much fossil fuel is used to make an electric vehicle? How much fossil fuel is used to produce the electricity needed to charge a vehicle?

How much extra maintenance is needed for our roads because of the heavier weight of electric vehicles?

How are the batteries going to be disposed of after their usefulness?

How are the low and middle income citizens of Maine going to afford an electric vehicle and pay for the electricity to run it?

Sincerely,

Carl Tabor

North Berwick, Maine
