Subject: Gas Vehicles

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Attention:

Please find inclosed in this letter a plea to all Democrats in government, in the state of Maine.

It is (Paramount) that you do not restrict, enforce regulations, or make new laws, whereby the hard-working citizens of Maine are not able to freely purchase gas operated vehicles.

Many people in Maine simply cannot afford such expensive vehicles. Nor is the State of Maine ready with the appropriate amount of charging stations, that would make it efficient for Maine citizens to have convenient access to these such stations... not to mention, enough electricity to maintain these vehicles.
Please consider the (burden) you will be placing on many throughout this state.

This overzealous action and inappropriate burden on the citizens of Maine, would be outrageous, and in total disregard for Maine families, who are already struggling just to pay their rent, mortgages, and to put food on the table, and pay their electricity bill, etc.

This is Not the way to help Maine citizens, or the State. It is unwise and unsustainable for the economic future of Maine at this time.

Please reconsider such action. As you will be putting many(already struggling) Maine families at risk. Please do what is right and honorable for the State of Maine, and it's hardworking tax payers. There is too much to lose, not to.

Respectfully Submitted,

Connie Stevens

Presque Isle, Maine
