As a Maine resident, I am opposed to this "California-style" tyranny imposed on us. It is unsustainable to rid our state of gas powered vehicles and go to EVs. The cold temperatures and long distances many of us must travel make it impossible to work with EVs. Not to mention the cost of these vehicles and the unethical mining and slave labor that is required to create these vehicle batteries (which run on coal power ultimately). We are on to you and we Mainers are tired of being abused by our government. We say NO to this so-called "clean cars" legislation.
