I am Elisaberh Thompson and live in Brownfield Maine. I am speaking our about the proposed plan to reduce and phase out gas powered vehicles.

Please don't rush into this. I live in an area where we have long commutes to work, worked as a social worker who was on the road making home visits in a large rural county. There is not the inferstructure to support electric vehicles, stopping to spend the time to charge would result in fewer home visits in a day. They malfunction during flooding, and there are still many problems that are not yet worked out.

Please do not rush down the trail if following California.

Sincerely,
Elisabeth Thompson
