Dear D.E.P.,

Please do not try to cram down middle class Maine throats, the mandate we get electric cars. I can't even imagine that Maine is considering this. We can't afford these vehicles, there are not enough charging stations in this state, let alone up north and the batteries are \$4,000 each. These are rich man cars, not middle and low class. Please, stick up for the little people and do not pursue this ridiculousness of supporting a mandate that all folks have to get an electric vehicle. It is horrifying and preposterous to even consider. I am a registered voter who is highly indignant to think that the Maine DEP and this Governor would remotely consider such a stupid thing for the Maine people.

Thank you,
Kathy
