I do not support the proposals presented for Chapter 128 or Chapter 127-A. I will further state that I will not support any act that forces the residents of this state to purchase a vehicle that has been proven to be harmful to the world as a whole. And as seen in California--The electrical grid is unable to supply the needs that are created.

Allow the people to make their own choices and allow us to purchase the vehicle we are able to or want to,
