I am opposed to idea of only being able to purchase only electric vehicles here in Maine.

One, our power grid isn't set up to handle the usage. Two, the solar fields that are being set up aren't the best idea for alternative energy in Maine. Include the cost increase of fixing the grid, hooking up the solar fields and the cost of buying and running an electric vehicle and you will be putting people further behind financially.

Eventually the cost increase to our electric bill for the clean up of these fields will also be added to our monthly bill.
