I am a southern Mainer from Berwick, ME. I do not want these new regulations imposed.

I do not have the finances to purchase an EV vehicle and do not want one.

With the fact that Maine has cold temperatures for a significant portion of the year, Ev vehicles are useless in this state.

Just given those crazy cold temperatures we had last year. No one would have been able to work, but food, leave their home for any reason including an emergency. An EV card would never start in those conditions.

These proposed regulation are ridiculous and not wanted. Do not incorporate them in to Maine's existing codes.

Thank you

Melissa Cormier

Berwick, ME
