To everyone addressed in this email,

This has to stop immediately. Has everyone at the Maine DEP lost their minds?! The people of Maine can not afford EVs we can barely afford our home electric bills and oil heating bills. How are we going to cover charging a EV that can barely make it 100 miles in the winter. Add to this the insanity of Pine Tree Power referendum and you may as well bankrupt the state of Maine and all its citizens.

Senator Brakey and Representative Arata both of you need to be at the Augusta Civic Center on 8/17 and voice OUR views and kill this insanity. The insanity in Augusta has to stop, now!! We are being run by a minority of radical people who do not embrace Maine but want to destroy it by molding it into the carbon copy of California. Between the abortion bill, transgender mutilation law, new taxes for "family leave" and changing zoning laws to allow more than one home on a residential home lot, the state of Maine is not much different than California at this point. For the love of common sense and all that is holy put an end to this NOW!!!
