

# Easy access to your personal and family immunization records

Track future shots, access vaccine forms, add family to a shared Docket® account, and more.

## 1. Set-up your account.

Download the free Docket® app. Sign-up with email, Apple, or Google.

## 2. Search state registries.

**Note:** your first name, last name, date of birth, and legal sex must match your state immunization record *exactly*. In addition, your record on file with the state must contain a valid email or phone number.

## 3. Manage your records.

### Back-to-School Forms

Tap the standard share icon next to your name to access a PDF record. Email, text, print, and directly from your phone.

### Set Calendar Reminders

Select the calendar icon to import reminders for future recommended immunizations.

### Add Family Members

Tap the plus (+) icon on the Immunization Search History screen to add your family to a shared Docket® account.

### Easy Record Refresh

Got a new shot? Drag and release to refresh your records. Your new shot will automatically appear if it was correctly reported to your state's immunization registry.

## Where is Docket® supported?

Docket® is available to residents of Alaska, Idaho, Maine, Minnesota, New Jersey, Utah, and Wyoming. Coming soon to more states.
