

Let's Find Out About It: Camouflaged Animals

Standards:

SED.SD.BRC.PS.1
 ELA.RL.KID.PS.1 - 3
 ELA.RL.CS.PS.1
 ELA.RL.CS.PS.2
 ELA.RL.LTC.PS.1
 S.LS.PS.1, 4, 6, 7

Materials:

- Rabbits And Raindrops
- camouflaged animals images resource

Vocabulary:

- camouflage
- protect
- predator: an animal that eats other animals for food
- survive
- prey: an animal that another animal eats
- habitat- where animals or people live

Preparation: Set up materials.

Let's Find Out About It:

"In *Rabbits And Raindrops*, the rabbits were **protected** from the rain by the hedge. What do you notice?"

"Here are some other animals in their **habitats**--where they live. What do you notice?"

"The animals are **camouflaged**--their coverings--their fur, feathers, or scales are a similar color to their **habitats**. This makes it difficult for other animals to see them. Why is it helpful if another animal can't see them?"

"Some animals are **predators**--they eat other animals for food. Because they are **camouflaged**, they can sneak up on their **prey**--the animals they eat--without being seen."

"**Camouflage** helps hide animals that are **prey** from their **predators**."
