### File Preparation:

Option 1: use your local Student Information System such as Infinite Campus, Power School or Web2School to export a file. You will need to work with your local SIS for assistance in downloading the file from their system.

Option 2: Fill out the Special Education sample file which can be downloaded from here:

[https://www.maine.gov/doe/data/student/Synergy\\_upload.html](https://www.maine.gov/doe/data/student/Synergy_upload.html)

(Note: the sample file has example students that you will need to delete.)

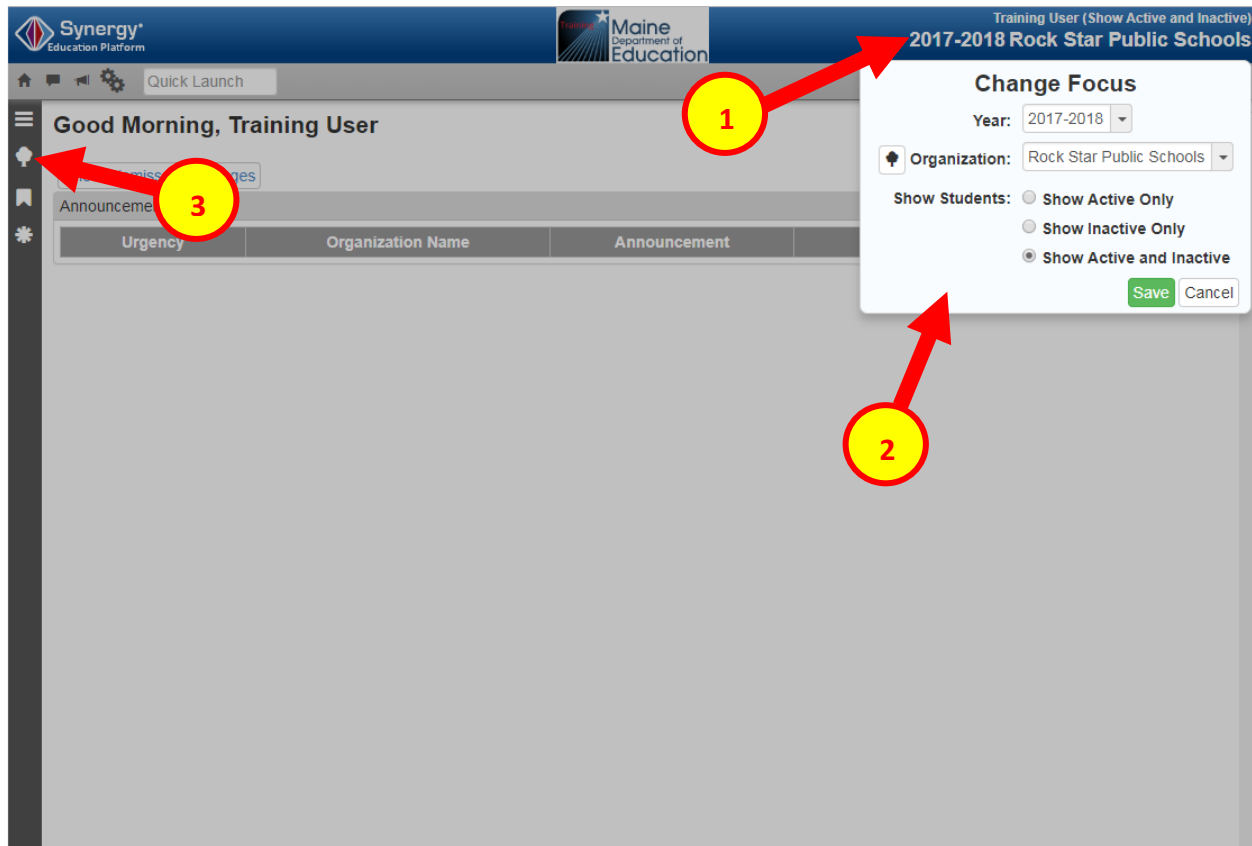

The upload file needs to be in either CSV or TXT format. You cannot upload an XLSX (excel) file. The sample file can be edited in excel but must be saved as a CSV.

The Special Education upload file must have the 10 required columns. The Special Education Upload requirements document lists the columns and the order they must be in. The Special Education Upload requirements document can be downloaded here:
