

This document is designed to highlight a variety of resources and initiatives related to nature based education for students ages three and up. Unlike outdoor learning where teaching and learning is done outdoors, nature based learning utilizes the natural world to guide learning through time spent engaged with nature. This document is fluid and not exhaustive. It is ever-changing as updates, links and contacts may change.

National Organizations

Ages 3-5 [Childhood by Nature](#)

Ages 3-8 [Samara Early Learning Children and Nature](#)

Ages 5+ [Green Schoolyards America](#)

State Organizations
