

Alewife Interaction Committee

11/7/24

1:00-3:00 PM

Meeting Agenda

1. *“Passive Technologies for River Herring Enumeration”*- Chelsea Fowler (PhD student from the University of Maryland Center for Environmental Science) giving a presentation on past research using eDNA paired with DIDSON sonar sampling for enumerating alewife runs (1:00pm -2:00pm).
2. Update from Theo Willis (DMR) on site visit to Pleasant Lake and Island Falls for assessing feasibility of passively monitoring river herring run size.
3. Discussing future directions for the AIC Committee.
