

# ADVISORY COUNCIL ON AFFORDABLE HEALTH CARE

June 5<sup>th</sup>, 2024  
2:30-4:30

# AGENDA

- 2:30-3:30 – Presentation and Q&A on Colorado’s multi-dimensional affordability efforts
  - Guest speaker: Rep. Kyle Brown, member of the Colorado General Assembly and former Deputy Commissioner for Affordability, CO Division of Insurance
- 3:30-3:45 – Debrief on further policy presentations
- 3:45-4:15 – Discuss other states’ annual spending reports
- 4:15-4:30 – Final comments & close

# RECENTLY RELEASED SPENDING REPORTS:

Over the last few months, several states have released spending reports that provide helpful inspiration for future OAHG annual reports. Three of the most robust are:

- Delaware - [Benchmark Trend Report - Calendar Year 2022 Results](#)
- Massachusetts - [Performance of the Massachusetts Health Care System – March 2024 Annual Report](#)
- Rhode Island – [Annual Report 2024 - Health Care Spending and Quality in Rhode Island](#)

Note – most states reporting on spending are doing so within the structure of cost growth target programs, but many of the reporting elements and visualizations do not require a cost growth target to replicate

# QUESTIONS ON EXAMPLE STATE REPORTS

- Are there metrics or data visualizations that you find especially helpful in the reports, which we could pursue developing?
- Do you notice any gaps in reporting, in terms of topics or specific measures?
- As we begin thinking about how to measure the quality of health care alongside spending, are there specific measure sets you would recommend aligning with?
