 Commissioner

## TRAINEE CLINICAL TRAINING FORM

Training other than radiation safety training may not begin until the Trainee has an active license. Trainee Radiographers must complete a Clinical Training Program during the traineeship in no more than 2 categories below. The minimum number of required procedures must be successfully completed during the 1-year term of the traineeship as outlined in Chapter 6, Section 8(1) of Board Rules.

Any change to the clinical training program or request to complete alternate procedures or experience must be submitted to and approved by the Board prior to executing the change or completing the alternate procedure or experience.

**All procedures must be performed under the direct supervision of the supervising licensed practitioner or a fully licensed radiographer.**
